

---

I might be a tad bit late jumping on this bandwagon, but we've all been too busy drinking in the recent Avengers: Infinity War madness. Iron Man 2 isn't getting the same kind of attention and for some it may be their first impression of the Marvel Universe. But don't fret! With a little love and care, I'm sure you'll learn to love Iron man 2 just as much as everyone else does. We've come up with a list of 5 things not to miss in Iron Man 2 that will hopefully help you out in understanding what was going on in this movie. [BAZINGA] 1. The IM suits in Iron Man 2 are a bit different from the ones we saw in the first movie.

So what's up, Stark? But seriously... it's time to get a move on with this movie! [ But seriously... it's time to get a move on with this movie! ] Inuyasha In order to reduce the damage caused by the Mark I armor, Tony made an improved version of his previous model, which is known as Mark II. It is built from lightweight titanium alloy coated with impact resistant gold-titanium nanocomposite and its outer surface was composed of carbon fiber composite. The Mark II's armor is re-designed to eliminate the critical vulnerability of the unmodified Mark I armor that was present, such as its weak point and the fact it cannot withstand a high-caliber explosion. Tony's new design of Mark II was completed and installed in six months and the new armor is almost indistinguishable from the original. The only difference between them is slight increase in size and weight due to more advanced technology inside.

2. Tony Stark, the multi-billionaire playboy, philanthropist and genius is well known for his playboy lifestyle. But he doesn't consider himself to be a playboy. This is probably the most important thing that Tony does for this movie that actually makes him who he is now. He rewrites his own rules set because of what happened with War Machine and The Avengers. Now he won't let things like the Avengers happen again or let himself become a tool for anyone else's purpose which allows him to face The Mandarin without holding back.

3. Steve Rogers has changed since before the events of The First Avenger. During the prologue when he was in the military, he is shown to be a hard taskmaster who was not afraid to make demands on his subordinates. However, after being saved by Tony Stark, Steve's perspective on life has changed drastically. He becomes more laid-back and less intimidating as he begins to grow closer to Tony Stark. He would even follow him through a series of dangerous situations because of his growing respect for Tony.

4. At the end of The Avengers , Natasha Romanoff aka Black Widow is left out of the team because her boss Nick Fury says she's supposed to be at home with her sick father .
