

Do not give out your credit card or personal information. This is simply an attempt to steal from you. If you have been asked for your "full name", "address", "city", "zip code", "date of birth", "mothers maiden name", "nationality", "telephone number"--these are the only items needed to set up a new account, and information about these is required in order to process a refund if necessary--and all of this is needed only in the event there's a problem with a purchase or a refund is needed. Be cautious of "phishing" sites. A link to the real site may be concealed within an email that purports to tell you about an issue with your transaction on some other website, or that describes a new upgraded version of some software product. Only provide personal information when needed to process a transaction or return a purchase.
