even harder than usual. Of course, if that's the case, you should ask for an update from BB. i box upgrade. I was thinking about updating. i got the V2 s3f but i wanted the original s3v2. it has this loading thing where it will show what kind of i box do you have 3 i box's, but in the kernel it shows that a new version is required. i'm trying to figure out if there is a loader for the v2 or what. Hi Before I go any further, let me clear

---

something up. When you say loading you mean the rolling blue screen that shows what kind of ibox you have and that you need a newer firmware to use it? ok let me explain We offer the PCB, Ibox Diamond Plus8 Receiver boards only. No PCB and no Loader can be used with any other ibox box.If you use anything else you will void our warranty. Hi, I got a problem with my ibox. I can not input text. Can someone help me? 1.

---

Unplug the iBox. 2. With the iBox still unplugged, remove the battery. 3. Remove the USB cable. 4. With the iBox still unplugged, remove the back cover. 5. Remove the back of the faceplate. 6. Remove the faceplate. 7. Remove the lid. 8. Remove the power board. 9. Remove the black small silicone rubber plug between the camera and the screen. 10. Unplug the power supply board. 11. Separate the three wires from the three

---

connectors on the power supply board. 12. Unplug the yellow connector on the top power board. 13. Insert ba244e880a
