
Ems Db Comparer For Interbase Firebird Crack PATCHED

May 7, 2010 – What's new in EMS Data Comparer for InterBase/Firebird v3.0? The comparison and synchronization algorithm has been significantly improved. Once again updated (and again significantly!) a program for comparing and synchronizing databases, databases with Firebird and InterBase tables. At the same time, in version 3.0, the comparison and synchronization algorithm was significantly improved, which made it possible to significantly improve performance. Version 3.0 changes A new type of comparison has been added, which compares two unrelated files without taking into account the links between them. Comparison is supported in this mode: databases with Firebird and InterBase tables
