Put one of the birds on top of one of the blocks and throw the bird at the monkey in the goal. The number of birds and blocks you are able to use on each level is determined by the difficulty of the level. If you remove one of the blockers, you will see a (?) block at the bottom of the screen. For each block, you will see an red (?) block in the corner of the screen, as a reminder of the player's position. Each bird has 2 features: You can throw the bird: You can fly the bird: You can change the direction of the bird: Best Porn Games : Each bird throws a stone when it hits the ground. There is also a small stone in each of the

corners. The objective of the game is to destroy all the blocks on the ground by throwing your bird on the red blocks on the ground while you can also use the small stones to destroy the blocks or fly above them. At the beginning of the game, each level has a number of red blocks on the ground. From level to level, the number of red blocks increases. If you remove all blocks before the number of blocks reaches 6, you will see a (?) block at the bottom of the screen, in addition to a (?) block in each of the corners. For each block, the player can see an red (?) block in the corner of the screen. The (?) block on the ground represents the player's position in the level. The game can either be played manually or automatically, and the beginning of the game is the same in both cases. The player is required to select the direction and difficulty of the level before the game begins. Then the level begins automatically, with the player watching the game play out while waiting to decide what to do next. The level begins with a block on the ground, with the
