Color Climax 1392 Little Ones In Love Hit - You cannot post new topics in this forumYou cannot reply to topics in this forumYou cannot edit your posts in this forumYou cannot delete your posts in this forumYou cannot post attachments in this forumQ: Cannot implicitly convert type 'System.Func' to 'System.Action' I am trying to call an async method in a background thread and I'm getting this error. What is an appropriate way to fix this? Here's the method that I am trying to run: public static void WaitForClients(string waitForType, int maxConcurrentCount, int currentCount) { RunInBackground(); } private static void RunInBackground() { BlockingCollection clients = new BlockingCollection(); Task t = Task.Factory.StartNew(() => SearchClients(clients, waitForType)); clients.Add(waitingFor); // Failing here, the below error. } private static async void SearchClients(BlockingCollection clients, string waitForType) { int count = 0; string countString = ""; while (true) { countString += string.Empty; await clients.TryTake(out countString, TimeSpan.FromSeconds(10)); clients.Add(waitForType); count++; Console.WriteLine("{0} searches initiated", count); } } EDIT: As requested, more code: A: Instead of trying to convert an Action into a Func, convert it into a Task (assuming that you are using .NET 4 or later) and modify the
