“Fifa 22 Activation Code features an all-new fluid and responsive left and right analog stick design,” notes Beenox studio head Laurent Detoc. “The new design takes into account the feedback we received from our fans and our development team. Now, players can decide how they want to control the ball and the pace of play on their own terms, as well as be more intuitive and fluid when they need to.” FIFA 22 also features motion control, which adds a new dimension to the game’s free kicks and set pieces.

With motion control, players can fling their kicks and volleys into unpredictable, pinpoint locations, while responsive directional inputs unlock new attacking and defending tactics. “FIFA 22 is a mobile game that is also designed for console and PC,” Detoc explains. “Our fans want to play it on all the platforms they want to play it on.

We wanted to support them, so we added a way for them to play FIFA 22 on their mobile devices as well as console and PC.” As with last year’s game, FIFA 22’s new “Visual Influences” system invites players to dive into the game’s world and look for inspiration anywhere, from actors to their favorite footballers, street art and architecture. “Fans have always come to us with really creative ideas – they want to see a new type of player, new animations, creative play, we want to deliver it,” said Detoc.

“As with previous versions, we have a long list of cool elements and game content you can personalize in-game and share on social media.” All the menus are now featured in simplified language, regardless of the player’s skill level. The Be A Pro menu now includes an option to play as a goalkeeper, a new item in the Skills menu. FIFA 22 also introduces Club World Cup, which lets players compete as national teams in four-team single matches between Fifa.com partners, and a new Stories mode, which adds immersive storytelling to FIFA games. “I don’t think we’ve told this story in the football genre – no one has,” said Exientia studio head Chris Scarbosio. “The stories are really driven by you and your teammates.” Scarbosio adds: “In
